Re: **Virginia Tech Renovation of First Floor Dietrick Hall and Plaza – Prebid Meeting**  
Virginia Tech Project #: 208-L00050/CP-0000  
Hanbury Project #: 19029.00

On October 21, 2021 at 2:00 PM a meeting was held in the Sterrett Classroom and the following were in attendance:

*See attendee sign in sheet.*

Items discussed were as follows:

1. Virginia Tech (KW) gave a general introduction to the meeting.
  - a. The project was introduced as having two major components, the interior project to capture the overhang for added seating and dining capacity and the Quillen Family Spirit Plaza project.
  - b. This is the project's second time out to bid.
    - i. Changes to the bid documents include:
      1. Projecting vestibule redesign to a more standard storefront system.
      2. Elimination of the demolition work at the tenant space.
      3. Deet's Place – work to service counter area has been completed since last time the project went to bid, no longer in scope of work.
      4. Food Service Equipment – no longer in bid, owner furnished owner installed, contractor will be expected to coordinate installation and make final utility connections.
      5. Plantings are now owner furnished owner installed.
2. VT (DT) welcomed attendees and gave an overview of the project history and bidding process.
  - a. It was noted that it had been 1 ½ years since the last time the project went to bid, which resulted in an overbid scenario.
  - b. The project is being broken into two parts to align with funding.
  - c. Ideally construction will start when students are gone over winter break.
  - d. Construction duration is noted as 300 days, prospective bidders are encouraged to submit RFIs regarding schedule if this appears too aggressive after review of scope of work.
3. Question: Is Virginia Tech prepared to pay more for the project?
  - a. VT (DT) – Yes, the budget has been increased.
4. VT (KD) reviewed the following:
  - a. Invitation for Bid
    - i. Bid form includes parts A-G; bidders are expected to complete all sections.
    - ii. Bid due date and time, allow for time for electronic submission to be received.
    - iii. Be sure that the bids are signed.
    - iv. Bid opening via Zoom.
    - v. Be sure to use latest version of Bid Bond form.
    - vi. SWAM percentages will be reviewed, Virginia Tech can work with awarded bidder to increase percentages.
5. VT (KW) reviewed the delineation between Part A and Part B of the bid form.
  - a. It was noted that Part B is for direct costs for the plaza scope of work only.
6. Hanbury gave an overview of the project.

**Pre-bid Meeting**

Meeting held October 21<sup>st</sup> 2021

Page 2

- a. Hanbury showed a photo of the existing conditions, highlighting the area underneath the overhang to be enclosed and the hardscaped plaza to be renovated.
  - b. The project scope includes relocation of the HokieBird statue that is currently located in Cassell Coliseum. The location of the new fire lane and existing steam tunnel were also noted.
  - c. Hanbury included renderings of the exterior and interior in the presentation to describe the work.
    - i. It was noted that moveable furniture is not in the contract, but built-in furnishings are as indicated in the contract documents.
  - d. Graphic plans were presented illustrating the following:
    - i. Delineation between existing and new enclosure.
    - ii. Locations of three venues on the first floor:
      1. Deet's Place
        - a. Work at the service counter and behind as aforementioned is completed and therefore not included in this project.
      2. New Grab and Go Venue
      3. DXpress
        - a. Current footprint will be converted to back of house and queuing area and seating will be added in newly enclosed area to the south.
      4. Tenant area demolition no longer in scope.
    - iii. Location of new restroom.
    - iv. Location of existing elevator to be accessible throughout construction.
    - v. Food service equipment will be owner provided, owner set in place and GC to make final connections.
    - vi. Hanbury noted that extents of work to basement level are limited to that required for MEP. Work to second floor should be limited to that needed to run refrigerant lines from the walk-in cooler to the roof unit.
  - e. Phasing
    - i. It was noted that the phasing plans included in the documents on G003 and G004 are a suggestion and the contractor can modify if there are alternate strategies that work within the identified constraints.
  - f. The location of the existing steam tunnel (not to be disturbed) was noted.
7. Question:
- a. Has a Food Service Vendor been selected?
    - i. VT- Not yet.
  - b. How will the site be accessed?
    - i. VT will work with the contractor to identify site access.
    - ii. There is an ongoing chilled water project that should be complete prior to the start of work for this project. Once complete it may be possible to access the site from the East corner of the building instead of across Dietrick lawn.
8. After the meeting, there was a walk-through of the affected areas. The tour stopped in route to view the Hokie Bird currently located in the lobby of Cassell. The steam tunnel path was also walked.
9. Questions asked during the walkthrough included the following:
- a. Question: What is the weight of the Hokie Bird?
    - i. See the contract documents for approximate weight.
  - b. Question: What are the dimensions of the Hokie Bird?
    - i. This has not been documented. VT noted that there are existing bolted connections through beam above that were historically used to maneuver the statue into the Coliseum. Statue will need to exit through front doors of Coliseum.
  - c. Question: Is the existing exterior ceiling under overhang of Dietrick to be demolished?
    - i. Yes. It was noted that exterior ceiling is to remain at corners and patched /repaired as required for new lighting.
      1. Clarification: See extents of demolition on AD201 and AD202.
  - d. Question: Is existing spray-on material in current tenant space to be removed?

**Pre-bid Meeting**

Meeting held October 21<sup>st</sup> 2021

Page 3

- i. Hanbury noted that this question will be followed-up.
            - 1. Clarification: See note C5 on AD201 for direction.
  - e. There were several questions about the extents of finishes in Deet's Place.
    - i. Hanbury noted extents of new finishes are shown on the finish plans.
  - f. Question: Is existing storefront at east and west corners to remain?
    - i. Yes. For clarification and extents, see AD101 and AD102.
  - g. Hanbury noted location of ductwork to be replaced above Deet's Place ceiling / enclosed in soffits.
  - h. Question: Are sunshades in Part A or B of the bid form?
    - i. Sunshades are in Part A along with first floor renovation work.
  - i. Question: Hanbury noted that there is an existing unused data bank next to the steam tunnel that will be demolished.
    - i. For clarification and extents of work, see C201 Demolition Plan.
    - ii. See C401 for associated new work.
10. It was noted that prospective bidders can reach out to VT (Kyle White) to schedule additional site visits if desired.

The aforementioned is our understanding of items discussed and decisions made during the meeting. Please contact this office with any additions or corrections to these notes.
